Enter: The 360. From Polaroid.

Electronic flash, electronic timing and the most sophisticated exposure control system ever conceived add up to the most remarkable 60-second camera yet.

It boops and beeps (and the charging stand.) lights go on and off) because It not only gives you a picture in a minute-it supplies of light for the distance. its own flish, sets its own exposures, times the development and even calls you when your

picture is ready.

The electronic flash stope action at 1/1000th of a second -fast enough to freeze a nineto catch people being neonle

And of course, you'll never need a flashboth seein Also, you will not spend baif of Christmas Day figuring the 360 our lust span the flash unit on the esmers. A boom-boom-boom

and a winking light will tell you you're ready for up to 40 flash shots in a more (After which you can excharge it just by potting it on

And this is not an indiscrimthe Model 360 does things that mate flash. As you focus, you louvers to put the right amount And what you're focusing

> (You don't have to do much but focus and shoot. A sophistrouse shutter figure exposures shots without flash, for you.) the film nacket our by the rab Another fight will

come on The ically timing the development No flashbulbs ever. Electronic flash shoots up

to 40 pictures, recharges on house current.

Beeep. The light goes out. You peel off a finished picture

in color. Perfectly exposed. Perfectly developed. Once you've seen how mur

this camera does (and how little you do), the artist in you will come our

Electronic timer sounds off the instant your print is perfectly developed. The 360 can use attach-

with a a Zeiss Ikon dool-image ments for head-and-shoulders rangefinder-viewfinder, speportraits as close as 19" and cially made for us in Germany It will take automatic time exposures up to 10 seconds And black-and-white indoor With a self-timer and a re-

pod, you can even get into your The Model 360 is the most advancedPolyroidLandcamera And the most supermarie. And one of the easiest to use So if you give one to somebody for Christmas and he saks

von. "What is it?", look at all you have to tell him.

> The 360. From Polymoid The world's self.sufficient

The Responsibility of Being the Best-

There is always one hest—a tribute to its producers, a recurrent delight in those privileged to enjoy it.

Rightly proud of their position, the proprietors of such a brand must also be deeply aware of the responsibility.

Every unit of their classic product must be the essence of perfection in all, and every, detail. It must stand comparison to the utnest if accessing, and yet by itself should be so completely satisfying that the suggestion of making any comparison is never becomed.

A Javelin for the track.

On this page you see a basic Javelin specially prepared and modified for the property of the p

Which brings us to the Javelin on the opposite page. This year, we're producing a limited number of Javelins in racing red-white-

and-blue.

We couldn't make it an exact street
equivalent. That's illegal.

We have, however, put in standard
equipment that's optional in most other

cars.
It has a 390 engine. Ram-air hood.
Dual exhaust system. Heavy-duty engine cooling. Twin-grip differential.

A Javelin for the road.

4-speed close-ratio gear box with Hurst shifter. Power disc brakes in front. Heavy-duty springs and shocks. Front and rear spoilers. F70 x 14 tires with raised letters. 140 mph speedometer and tachometer.

Now, if the racer's a little too much for you, there's the Javelin that started our sports car crase in the first piece. We've put in standard highback backet seats and redesigned the instrument panel. We've also added a lot of new options.

Like corduroy upholstery trim in five colors, leather trim in three. Landaustyle vinyl roof. New style rally and sccent stripes. And a lot of other things that can make the Javelin look and act just as racy as you want it to.

A good case can be made for a terrible watch.

There's no woy you con look ot the outside of o wotch ond tell what goes on inside the case.

You have to check with someone who knows watches inside and out when you buy one. He'll give you o good, honest, professional opinion. Why? Because he doesn't want to sell a watch that will come back to hount him.

People who know wotches know that the Swiss movement in on Elgin makes it the most watch you can get for your money. And they know that the more wotch they give you, the less trouble you'll give them.

Elgin stands behind every watch they sell. And they se stood behind over 70,000,000 watches since 1864. That gives the people who sell Elgin confidence. And it should make you feel even more confident when you buy one. Ask same one who really knows watches bobut Elgin.

Elgin. Ask someone

If you want your friends to visit you on New Year's, send them a Passport for Christmas.

Passport Scotch is a blend of the finest whiskies Scotland has to offer. So when your friends receive it for Christmas, and taste it, they'll know you've given the best.

What they won't know is that Passport Scotch has a very reasonable price. (We bottle it here in the U.S. to save you money on taxes.) Thinking it's a very expensive Scotch they'll put it away for special occasions.

Then they'll start trying to think of

places where they can drink Passport for free. Naturally, they'll think of your house first.

Passport Scotch. Imported by Calvert
